January 31st 2014

Dear Parents/Caregivers,

RE: Extreme hot weather policy

Due to the current hot weather conditions this letter is to inform you of key aspects of the school’s extreme hot weather policy. Full details of the policy can be found on the school website.

During periods of extreme heat (after 3 consecutive days over 38 degrees), students will be dismissed at the beginning of lunchtime (12.45pm) when the estimated maximum temperature for the Adelaide Metropolitan Area, as announced on the 5.00pm – 7.00pm TV news reports during the previous evening, is 38 degrees or above. Parents will be notified by SMS when this is being implemented.

Students who cannot leave school will report to the Resource Centre at the end of lunchtime and remain supervised until the normal dismissal time. Note that bus schedules cannot be changed to suit arrangements during extreme heat.

Where possible, Year 12 lessons will continue as normal in order to enhance SACE achievement. These classes will be conducted in the coolest rooms available.

Yours sincerely,

Panayoula Parha
Principal
